

PBC-UMS

ITEM: PBC-UMS

WEIGHT CAPACITY:
160 LB/ 73 KG

FEATURES

- 1 Supports projectors weighing up to 60 lb
- 2 Includes standard 1.5" NPT coupler and ceiling plate
- 3 Four dual-joint support arms mount to many different projector patterns
- 4 Quick-release built in for projector installation and maintenance
- 5 Offers integrated 360° of rotation for optimum placement

Universal projector mount with integrated coupler that fits most projectors weighing up to 60 lb.

The PBC Series of universal projector mounts fit most projectors weighing up to 60 lb (27.2 kg). It includes a standard 1.5 in NPT coupler and ceiling plate that mounts to a single stud or 4.5 in bolt pattern. The PBC-UMS offers flexible projector positioning with four patented dual-joint support arms (US Patent number 7,942,375) that can reach almost any mounting point on a projector. It also includes a quick release connector that allows the projector to be installed quickly and then easily released for maintenance, without re-alignment.
