- Locking heavy-duty, 4" casters easily support large weights while proving maneuverability
- Full setup takes less than 10 minutes

The Premier Mounts LFC is a large format mobile cart that creates mobile solutions for massive flat-panel and interactive displays up to 98" and up to 300 lbs. This cart utilizes our T60 which allows users to adjust the mount and display to their desired viewing height. Displays can be mounted in portrait or landscape orientation as well. The mobile base is designed to nest multiple carts allowing multiple carts to be stored efficiently.

The LFC's mobile base features an open design, allowing multiple carts to nest together. Locking heavy-duty, 4-inch casters easily support large weights while proving maneuverability. Full setup takes less than 10 minutes and installation steps are the same with Premier Mount's line of mobile carts and stand making it especially easy for those already using these products.
